 To: Douglas Straus [National Development]  
 Subject: historic marker at Concord and School Streets in Framingham

From: Laurie B. Evans-Daly  
 Chair, Framingham Historical Commission

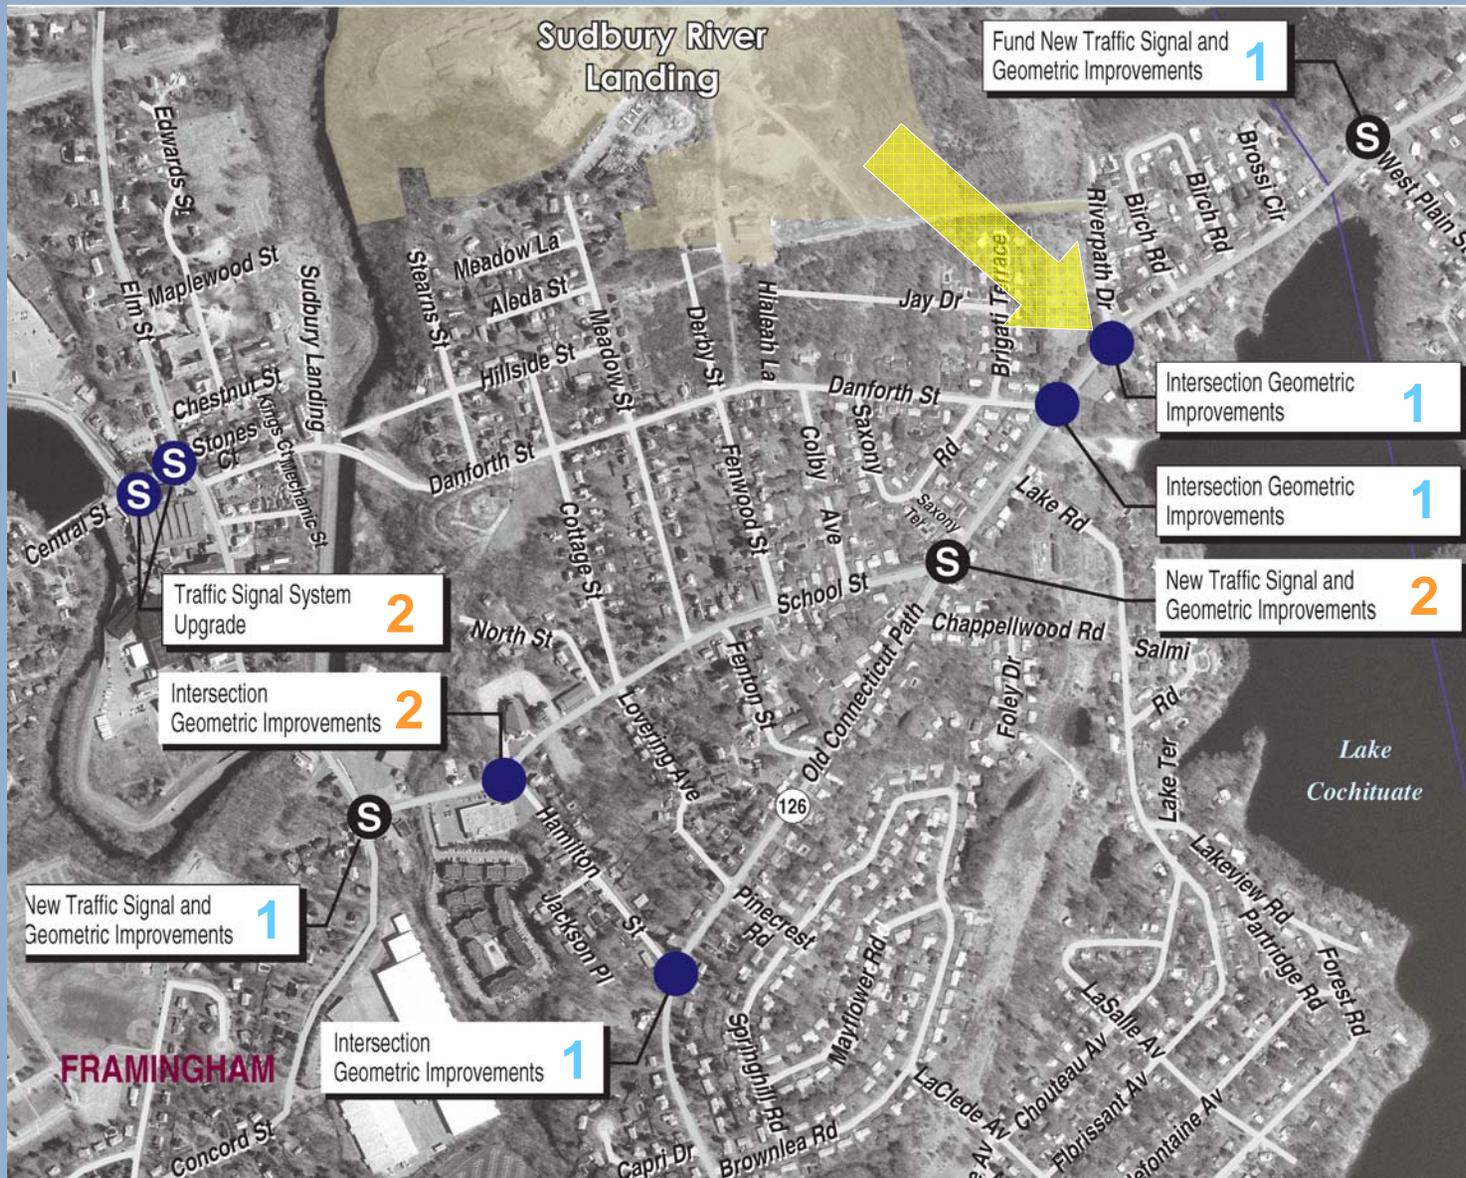

The Commission grants National Development permission to relocate the historic marker (boulder) located in the triangle at the intersection of Concord and School Streets to the side of the reconstructed roadway. This intersection may be either the terminus or a crossing point for the proposed Cochituate Rail Trail and the marker may be more appreciated by pedestrians therefore we would request that both the Commission and Dick Miller of the CRT committee be involved in the final placement of the boulder.
