### Public Way Access Permit Application Checklist

Please insure that your application and site plans include all the items below. If a site plan does not contain the required information you may request waiver. Waiver requests must be accompanied by a written explanation for request. (\*\*Please note: Failure to complete all items may result in your application being deemed incomplete and may cause a delay in processing your application.)

- Name of record owner(s) of land shown on the plan.
- Name, signature and seal of surveyor who prepared the plan.
- Names of all adjacent abutters, as they appear on the latest Assessor's records, and if the applicant has knowledge of any changes subsequent to the latest Assessor's records, the names of the present owners of abutting land.
- Location of all manmade structures and significant natural features, including existing buildings and structures, stone walls and guardrails, rock outcrops, steep slopes, wetlands, easements, rights of way, water courses, drains, streets, ways, Scenic Roads, major trees (12 inch diameter, or more), and such other references known to the applicant to sufficiently identify the land to which the plan relates, and to sufficiently identify any existing impediments to access upon the land. A topographic plan, at 2 foot contours, shall be provided where slopes exceeding 15% may impede access upon the land between the street and the proposed location of the structure or house.
- Town of Framingham Assessors Map Number, Block Number and Lot Number.
- Boundary lines, dimensions and areas of all lots to which the plan relates.
- North point, date of survey and scale.
- Delineation of all streets and ways, both sides, indicating the width of pavement with a statement of whether or not all streets and ways shown or referred to are public or private ways, indicating the same as to each street or way so shown.
- An appropriate reference shown on the plan to any variances granted by the Zoning Board of Appeals or other decisions and permits affecting the land included in the plan.
- The length and width of proposed access or proposed modifications within the public way.
- The length and width of existing access within the public way, if applicable
- Whether a sidewalk is present, and if present, what is it constructed of (bituminous or cement concrete)
