Hazardous Chemical Awareness

FBI-DHS

Private Sector Advisory

Some commercial products contain chemicals that can be used for illicit or terrorist purposes. Authorities need your assistance to keep your community safe. See reverse for more information.

What can you do? Follow these simple steps:

- Recognize hazardous chemicals in your product inventory
- Know your customers and report suspicious or unusual purchases to authorities
- Check your inventory and report missing or stolen products
- Ask for customer I.D. and maintain a log of large purchases

Concerned? Contact local authorities for more information:

Police Department: _____

Local FBI Office: _____
