- **Thirty-three additional residents test positive for COVID-19, 45 more people have recovered from the virus, and City learns of six new fatalities:** The number of people in the City who have tested positive for COVID-19 is now 1224. The six new fatalities announced today are connected to long term and skilled nursing facilities. With 347 cases recovered and 52 fatalities, Framingham currently has 825 active cases. The Framingham Health Department contacts the people who were potentially exposed and the owners of the businesses or places of employment where the potential exposures occurred to inform and counsel them on next steps (contact tracing). In addition to the active cases, the Framingham Health Department currently is following 277 residents in quarantine.
- **The City's Department of Public Health releases demographic COVID-19 data every Saturday on all confirmed COVID-19 Cases in Framingham since March 1, 2020:** Data includes information about confirmed cases by age, gender, race/ethnicity, fatalities, nursing homes, skilled nursing facilities, and residential settings. The data release also includes information about rates per 100,000 population. Reference today's data release [here](#).
