

## Saving Energy through Green Communities

Energy conservation measures implemented across four schools are projected result in annual savings of over:

- ⚡ • 240,000 kWh of electricity
- 🔥 • 9,100 therms of natural gas
- ☁️ • 130 metric tons of carbon dioxide

In partnership with Capital Projects and Facilities Management, the Framingham Public Schools have utilized **2020 Green Communities Grant** funding to implement:

- Kitchen Refrigeration Upgrades
- Steam System Improvements
- HVAC Upgrades
